UBUNTU

## PROFILE

I am a self-motivated, creative individual with great passion for programming. My top skills are knowledge of C#.Net including ASP.Net Core, WPF, EF and writing clean, testable code.

Currently expanding my knowledge of front-end development with Angular 2, JavaScript, HTML5 and CSS.

I have strong interpersonal skills and I am eager to be challenged in order to grow and improve my skills as software developer.

## PROFESSIONAL EXPERIENCE

### Production Line Manager

Greencore, Worksop, Nottinghamshire | 2016 - Present

Managing a team of up to 30 operatives, ensuring that performance within area is maximized through careful monitoring, identifying trends and acting upon opportunities to increase quality and performance.

- Trained to run every production line within factory.
- Building teams with shared vision of success.
- Attending daily operations meetings and running weekly briefings.
- Stepping up as Production Manager when required.

### Warehouse Operative

Wilko, Worksop, Nottinghamshire | 2014 - 2016

Part of a large warehouse team responsible for timely picking/packing goods. Working in a fast, performance driven environment.

- Picking and packing goods.
- Using voice picking headset.
- Working within different warehouse departments as a skilled operative.

### Graphic Designer

Red-Neon, Zawiercie, Poland | 2011 - 2014

Producing designs that get clients message with high visual impact. Working with a small team on delivering high quality products.

- Creating designs for a variety of products including brochures, flyers, billboards, business cards, light-boxes, 3D letters and neon signs.
- Communicating with clients on different levels of design to provide best service.
- Using printing machinery and flatbed plotter as well as various office tasks.
